

REMARKS

The Examiner is thanked for the careful review of this application. Applicant has thoroughly reviewed the outstanding Office Action. The following remarks are believed to be fully responsive to the Office Action.

5

Drawings

The drawings were rejected in Office Action mailed 02/06/2007. The Fig. 1 should correct the element 10 to "DAC". In response thereto, Applicant submits a substitute sheet of Fig. 1 to replace the original sheet.

Furthermore, the drawings must show every feature of the invention specified in the claims. In response thereto, Applicant submits the new sheet of Fig. 5 showing every feature of the invention specified in the claim.

Specification

For explaining the new sheet of Fig. 5, Applicant added a new paragraph between the original paragraph 24 and paragraph 25. In the new paragraph, elements of the ADC 50, driving signal value 52, look up table 54, and temperature value 56 are added. Since the coupling relationship and operations of these elements have been presented in other paragraphs such as paragraph 19 and paragraph 25 of the original specification, it is believed that no new matter is entered.

10

CONCLUSION

In light of the above remarks, Applicant respectfully submits that the amended Fig. 1, newly added Fig. 5 and the newly inserted paragraphs are fully responsive to the Office Action and hereby requests reconsideration and allowance of these amendments
